

Keep your
people safe and
assets secure.

ONSTAR SAFETY SERVICES

You need your vehicles to arrive, your assets secure and your people safe. Specially trained Advisors are standing by 24/7 to help your drivers in the event of a crash, a vehicle theft or even a medical emergency.

Safety & Security

Get the tools to help keep your drivers protected on the road.

SERVICES

EMERGENCY SERVICES

Driver safety always comes first, but sometimes the unexpected is unavoidable. If a medical emergency happens on the road, an OnStar® Emergency-Certified Advisor can provide crucial medical assistance until First Responders arrive.

AUTOMATIC CRASH RESPONSE

In a crash, built-in vehicle sensors can automatically alert an OnStar Emergency-Certified Advisor. The Advisor can use GPS technology to locate the driver's vehicle and send for help — even when a driver can't ask for it.

STOLEN VEHICLE ASSISTANCE

Once law enforcement confirms one of your vehicles has been stolen, OnStar Advisors are ready to help authorities recover it quicker and safer.

TURN-BY-TURN NAVIGATION

When a route gets blocked or traffic unexpectedly backs up, drivers can have directions downloaded right to their vehicle.

ROADSIDE ASSISTANCE

When drivers need a tow, have a flat tire or run into other problems on the road, Roadside Assistance is available at the push of a button to help get things moving again.

Driver Remote Access

Provides drivers with streamlined diagnostic insights, directions and the ability to use the vehicle mobile app as a key fob on their smartphone (if properly equipped).

SERVICES

REMOTE COMMANDS

This puts the power of the key fob on your smartphone. Drivers can remotely start and stop the engine, control the locks, and activate the horn and lights using the vehicle mobile app.

VEHICLE DIAGNOSTICS

Provides drivers with information about select vehicle systems. Get alerts for tire pressure, oil life, fuel level and more through the vehicle mobile app.

DIRECTIONS ON THE GO

Send directions to your in-vehicle navigation system from your mobile app.
